### Cost Questions

I have had my Nintendo for about two years now and I have eight games. I heard on the six o'clock news that it only takes \$4-\$5 to make a game. Why are they about \$40-\$50 at stores?

**Billy Winslow**  
Saratoga Springs, NY

Game Pak are like human brains—they process information. In fact, the entire human body isn't "worth" much! With inflation and all, its "components" are worth just about as much as Game Pak components are, but most of us like to believe we're worth more than that! Like human brains, it's how we use the Game Pak's memory capacity that counts, and once our engineers put their gray matter to work, designing and developing a program to best use the Game Pak memory is the biggest challenge—and expense. Add to the cost of programming and development other expenses like packaging and shipping and you can see that the actual cost of putting a Game Pak on a store shelf is much more than that of its raw materials alone.

**Star Watcher**  
I saw The Wizard last weekend—it was great! I want to write to Jenny Lewis, the girl in the movie. Do you have her address?

**Jason Kendall**  
Boston, MA

Judging from the number of letters we've received, Jenny's going to get lots of mail. She's working on a new television program, Shannon's Deal, for NBC. You can write to her c/o NBC Publicity Dept., 3000 W. Alameda, Burbank, CA 91523.

**Multi-lingual Power Source**  
I'm a real big fan of Nintendo. I got my NES last year and now I have lots of games. I got Nintendo Power and I really like it. The tips I read really helped me improve my scores, but I could understand them better if you wrote in French. There are lots of Nintendo players here in Quebec, and some of my friends speak French, not English. Do you have Nintendo Power in French, too?

**Joanie Cremin**  
Longueuil, PQ

Nous parlons français! (Y tambien hablamos español!) Nintendo Power is published strictly in English, but we can answer letters in French and Spanish. Send us your questions (o preguntas) and we'll do our best to respond in your native language.

**Change of Address**  
What do you do if you are moving to a new city or town and want your address changed to make sure you get your Nintendo Power?

**Michael Welle**  
Springfield, VA

It's easy to have your delivery address changed. When you know what your new address will be, call our Consumer Service Representatives at 1-800-255-3700. They'll see to it that you don't miss out on the Power.

### Game Boy Fan Mail

I recently purchased the Nintendo Game Boy. I am proud to say that it is great! The graphics are excellent, the stereo sound is superb, and it is small enough to take anywhere. My games include Super Mario Land, Baseball and Tetris. I am looking forward to playing GOLF and many other Game Boy Game Pak's. I would like to know if Nintendo Power will have a special place for Game Boy previews, high scores and tips.

Keep the great products coming.

**Stevie Stevens**  
St. Leonard, MD

Game Boy's been a big hit! And yes, we've had a Game Boy column since the September/October 1989 issue. You can expect the column to expand as more games become available and as we learn about more tips. When you discover tips and secrets, send them in, or if you post a super score, send us a picture of your Game Boy screen. Who knows? Maybe you'll see your name in the Game Boy Column.

Drop us a line, we'd love to hear from you! Send your letters, drawings, jokes, tips and Power Player Profiles to:

## VIDEO SPOTLIGHT

I hear that you're looking for Power Players. Well, you just found your man. I'm 14 and have 37 games. I got my Nintendo when I was eleven and I think it's totally awesome. I have played many games and beaten most of them. Blaster Master, Ninja Gaiden, The Legend of Zelda and Ikari Warriors are a few that I've beaten.

My favorite game is Blaster Master because I like the idea of having the little character get out of the car to obtain weapons and to destroy the mutants at the end. I have other interests. I enjoy playing basketball and football. I make the "B" honor roll easily in school, and I like to read C.S. Lewis

books. My favorites are the seven Chronicles of Narnia. Right now I'm trying to finish Cobra Triangle and Teenage Mutant Ninja Turtles. In the future I plan to get Batman, Blades of Steel and RoboCop. Keep those awesome games coming because I'm ready!

**Asaf Mirza**  
Secaucus, NJ

I think I'm a Power Player because I've beaten just about every game that I've played. All together, I've defeated 19 Nintendo games so far. My Game Pak library is small, so half of the games I defeated were borrowed from friends. Since I'm often busy with schoolwork, I cannot beat games quickly. Nevertheless, if I'm persistent enough I can beat even

the most time-consuming games such as The Legend of Zelda, The Adventure of Link and Metal Gear. The game that puzzled me the most of all the games I've defeated was Rambo. I finally solved it without any help and destroyed the flying fortress using only five life bottles.

I enjoy a variety of sports, collect baseball cards, and play in the Woodbridge Middle School band.

I'm the oldest, and only boy in my family and have three younger sisters. I think that Nintendo games are getting better every year and that Nintendo Power is the best video game magazine around.

**Will Cwiercienski**  
Elmhurst, IL

Land. Future games: I plan to get any RPGs that look cool, and I plan to stock up on games for my Game Boy. I'm also looking forward to Super Mario Bros. 3, Zelda III and Dragon Warrior II, if they're coming out.

Interests: Playing video games and skiing at nearby Mission Ridge. To pay for video games and skiing, I usually work summers at a cherry farm.

Advice: To anybody who doesn't have a Game Boy, I say get one! It's great—you'll love it, especially on long trips.

## The Light Warriors

The great sage, Lukahn, predicted that four courageous foes of evil would one day recover the four good Orbs and bring freedom to the world. They would be great fighters and wield the power of magic. But many years passed. Then, finally, beyond hope, they arrived—The Light Warriors!

### The King's Quest

The King's Quest is but the first of many trials for the adventurers.

For many years Coneria has suffered the ravages of an evil sorcerer. Seeking out the King of the land, the Light Warriors learn that the Princess was abducted by Garland and taken to his castle. They set forth to rescue her.

### Coneria

The Light Warriors speak to all the people of this town, although some are more interested in body language.

### The Fall of Garland

Through treacherous lands the heroes fight their way Northwest until they reach a desolate palace. Inside, they find Garland and challenge him to battle. Having gained strength and experience on their journey, they defeat the wizard and rescue Princess Sora.

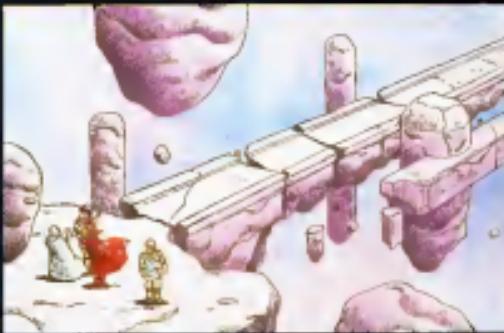

By using their strength of arms and magic the Light Warriors defeat Garland and rescue Princess Sora.

# Across The Bridge Awaits A New Land

In promise to the Light Warriors, the King builds a bridge to the mainland. Once across, the warriors realize that their adventure has just begun. Wide realms lie before them, and great deeds wait for the coming of bold heroes.

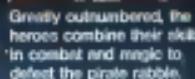

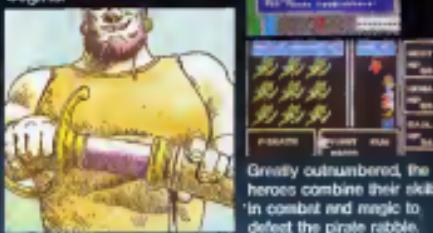

## The Cave of Matoya

First, they seek out the friendly witch who dwells in a cave to the North. There they learn new secrets from Matoya and her broom.

## Battling The Pirates

Then the Light Warriors turn Eastward to the village of Pravoka where fierce pirates have laid siege to the town. A desperate battle begins.

Greatly outnumbered, the heroes combine their skills in combat and magic to defeat the pirate rabble.

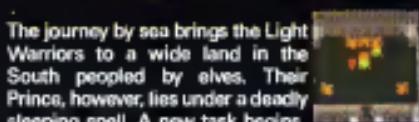

## The Voyage of The Pirate Ship

The defeated pirate captain gives up his ship to the warriors. Now they can sail to new shores, but they can land only on those equipped with a stone pier. After stocking up at Pravoka, they head Southwest.

## The Sleeping Elf Prince

The journey by sea brings the Light Warriors to a wide land in the South peopled by elves. Their Prince, however, lies under a deadly sleeping spell. A new task begins.

## A Village of Elves

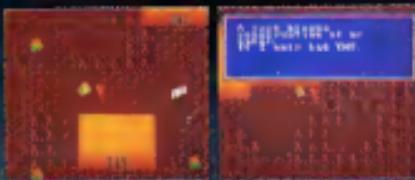

In the Elf Village there lie many people who have died in battle. Visiting their graves, the Light Warriors pay their respects to these fallen heroes.

## The Dwarf Cave

Traveling further West, the Light Warriors discover a town of Dwarves who live in a great cave. Here they obtain riches and meet Nerrick, who must have explosive TNT to complete the channel he is digging to the Western Sea. To get the TNT they need a key from the sleeping Elf Prince.

## The Castle of Astos

In this Northwestern castle, the Light Warriors meet a mysterious king named Astos who has lost his crown. But there is more here than meets the eye.

# The Marsh Cave

Seeking the crown of Astos leads the party to this vast, southern cave. Inside they are met by an army of evil creatures, but with each victory they earn treasures and build experience. Luckily they brought plenty of Heal Potions to restore their energy. And so after many battles they at last find the crown.

## A Desperate Battle

The fiends in the Marsh Cave fiercely guard their treasure and the Light Warriors have never faced such an attack. In fact, they use 50 Heal Potions just to reach the crown!

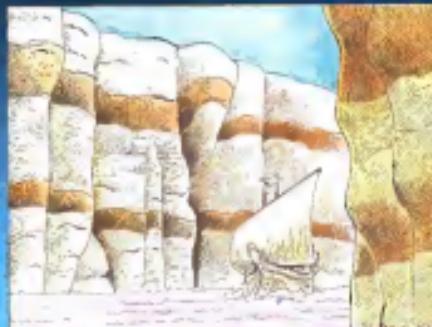

## The Elf Prince Awakens

Having obtained the Crystal from Astos, the Light Warriors return to Matoya's Cave. The kindly witch rewards them with a Magical Herb that wakes the sleeping Elf Prince. He gives them the Key.

## Seeking The TNT

With the Key, the band of heroes returns to Coneria and searches every locked door for the TNT Nerrick needs. To their great surprise, they also find a valuable item of power in a treasure chest.

## The Earth Cave

In the Far West lies a cave filled with evil. But the four heroes must penetrate the darkness and defeat a Vampire to obtain the Jewel.

## Up The Creek In A Canoe

After many more adventures, the Light Warriors reach the town of Crescent Lake where they meet Lukahn the sage and obtain the Canoe.

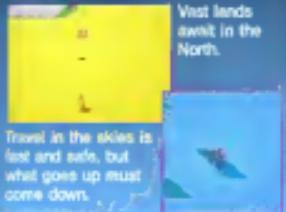

## The Heart of The Volcano

Paddling up the rivers of the Southeast, they come to Gurgu Volcano. Deep inside is Kary, the demon of fire. They use magic to defeat the fiend.

## Take to The Skies!

With the Floster they find the airship and fly to the North. Here, a new world opens up for them. New quests await and old secrets remain hidden. In time they take on new identities and face the ultimate challenge from the past.

Travel in the skies is fast and safe, but what goes up must come down.

## Treasure of The Ice Cave

North of the Volcano the Light Warriors reach the Ice Cave. It is their greatest test so far! But success rewards them with the Floster Stone.

OUT OF THIS  
WORLD ACTION

# SUPER EARTH

The aliens are back and they don't intend to lose a second time to a couple of combat veterans from a backward planet like Earth. But that didn't stop you in Contra and it's not likely to stop you now. What may stop you are the eight grueling stages leading up to the final, desperate battle with an indescribably weird alien Super C superfiend. If this game doesn't heat up your summer, nothing will.

## STAGE 2

### The First Base

strategy. The vertical scroll means you'll face attackers on four sides rather than three.

#### DODGE DISASTER

Gain time to plan moves by standing in the safe zones between the firing patterns of tanks.

Stand in the  
"Safe Zone"

◀ START

Once more into the breach! To succeed here you must change your

strategy. The vertical scroll means you'll face attackers on four sides rather than three.

Watch your tank!

Blast the tank.

#### THE BIG GUN

Dodging the shots of this giant gun isn't so tough if you keep to the bottom of the screen. Move in the direction opposite the motion of the Big Gun.

Blast the Big Gun when you're in the clear

#### KEEP ON MOVING

If you don't have a strong option, don't bother finishing off all the enemy troops or guns. Just before the Big Gun at the end you can race past the two guns on each side and still take on the final enemy.

Don't waste time. Move on to the end

## STAGE 3

### The Jungle

Don't let the pleasant greenery fool you, this jungle has been planted with booby traps and an alien army. They'll come at you from the bushes, the trees, and pop up suddenly in front of you.

#### MOW DOWN THE MORTAR

Staying on your toes isn't easy in this swampy jungle, but it's vital. Once you spot the mortar it begins launching its rounds. Keep to the far left of the screen, just out of range, and continue firing at the mortar until it's destroyed.

Don't move too close to the mortar or you won't be able to move back out of range.

#### DIVING FOR COVER

About midway through the jungle the action really heats up. If you need a break, dive into the pools and stay submerged. Underwater no one can harm you.

#### ANGLE OF ATTACK

Alien troops have heard about your success and they've been waiting up in the trees. In this area run forward firing at a 45 degree angle.

First, defeat the three aliens in front, then turn and neutralize the attack from the rear.

#### BABALU DESTRUCTOID

This mechanical monster doesn't need to spin a web to catch its prey. To defeat it, dodge its stomping feet and its Destructoid beams.

Use the top of the Babalu as a safe refuge from its attack.

#### THE EARTHQUAKE ZONE

When you feel the ground shake, rattle and roll, slow down! You're in the middle of the Earthquake Zone. Move one step at a time. If the ground drops away, jump immediately or you'll be swallowed. And don't forget to defend against crazed attackers.

#### DEATH DROPPER

This fiendish machine can really get the drop on you. Fire straight up at the moving targets, dodging back and forth to avoid the falling bombs. If you jump up, however, you can kiss a life goodbye. It all comes down to good timing and quick reflexes.

Using the Spreader option will help you to win quickly.

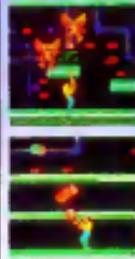

## STAGE 4

# The Inner Base

Home to elevators, angels and floating blue bubbles, it seems that this should be a truly uplifting stage of the game. But the truth is that these lofty enemies are trying to keep you down. All you can do is press ahead and keep your spirits up.

## KNOW THY ENEMIES

The lower shaft is the home of winged aliens who attack like avenging angels. Most of the time they'll jump down at you from above, so your best defense is the Spreader.

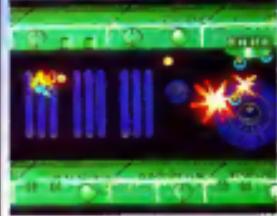

Keep Your Head Up.

Shoot out the rotating Disc guns first.

## BUBBLE TROUBLE

When bubbles appear ahead in the corridor, jump and fire. Your jumping motion will make you spin and your shots will reach the higher bubbles.

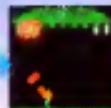

Don't try to dodge!

## LASER SHOWER

The Laser Shower is trying to clean up your act with a deadly dose of white light. It looks pretty menacing, but in fact is one of the easier enemies. Just make sure you have the Spreader. Shoot out a space in the center of the Showerhead and continue firing from that safe spot.

Shoot the center first.

Then blast the sides.

## THE ULTIMATE WEAPON

As you'll see, using the Spreader is almost always the key to defeating the toughest enemies. In the elevator shaft shown here you can find the Spreader a little more than half way up. Make sure you snag it.

## BLAST THE BARRELS!

From the far right hand side of the screen, shoot out the barrier to the left above. If you shoot the barrier from out in the open, you'll be wiped out. Go to the far right.

Shoot the barrier

## THE LOWER SHAFT

Angels and Disc Guns make for a dangerous combination. While the Guns pin you down the Angels attack en masse. Your best bet is to shoot out the Disc Guns first and then turn to the Angels. Move slowly, one ledge at a time.

Shoot the Disc Gun on the left side of the shaft first. Then destroy the Gun on the right side.

START ▶

# STAGE 5

## The Cliff

Why should you climb this brutal cliff? Not just because it's there, that's for certain, but because you have to. On your way up you'll meet aliens propelled by jetpacks, robotically controlled guns in the cliff and treacherous giant stones that crush everything in their path like steamrollers.

### ATTACK GYMNASTICS

The rooftop guns are best taken from behind. Jump down from the level above, then quickly jump over the gun and feed it hot lead.

### KRYPTO-CRUSTACEAN

This skull dropper is another tough target for you and the Spreader. First clean up the attacking skulls. Then aim for the blinking red eye on the Skull Dropper itself. As always, quickness counts for a lot.

### ROLLING STONES

Near the cliff top you'll encounter huge stones that gather no moss. In the area indicated, jump straight up to set the stones rolling harmlessly by.

### GETTING THE SPREADER

Look for swiftly rising Option Capsules where indicated. The Capsule to the right should have the Spreader, which is always your best weapon.

### KNOW THY ENEMIES

Moving up the cliff face you'll encounter many permanent gun emplacements that pop up. Remember where they are and take them out quickly. The jet-pack troops attack from below. Use the Spreader against them.

▲ START

## STAGE 6

# Entry To HQ

This subterranean gauntlet run is lined with living organisms—things that chase you, spit at you, and worst of all chomp you like a Great White Shark. Danger will surround you on every side. A straight ahead attack is your best bet.

▲ START

## THE ALIEN & THE SNAKE

A huge snake will appear from the side and circle around you. Attack this first and then go after the head of the alien in front of you. While the snake is gone, fire directly at the alien's head, but keep an eye open for red mites and the reappearance of the snake.

Stay in the middle of the screen and watch your sides.

## LITTLE CRITTERS

Hordes of little alien creatures haunt the path you must take. They'll attack from every side, but they're relatively slow. Get the Spreader to wipe them out easily.

Keep an eye to the left and right.

You can run from danger.

## BIG MOUTHS

These yawning jaws only multiply if you shoot them. They also appear at random. Your best strategy is to march straight ahead and shoot at the other creatures.

Big Mouths can appear anywhere.

Move straight ahead.

## KNOW THY ENEMIES

Blue Mites inhabit this gloomy place. They're both slow and predictable, but you can easily forget them and that's dangerous. Big Red Mites will circulate you, allowing other creatures to attack while you're trapped.

# STAGE 7

## Headquarters

▼ START

Congratulations, you've reached the strangest and most dangerous stage so far. Here you will face erupting pods and perilous plants and eventually come face to face with a nightmare.

### SPREAD THE WORD

Just as you fall out of the bubble tunnel, shoot the capsule to the right. It contains the Spreader, but it appears very quickly so be ready for it the instant you leave the tunnel.

Shoot from safety Aliens leap from undamaged pods

### THE PURPLE PULPER

Half plant, half beast and entirely alien, this enemy advances slowly while firing burning spores. If you stand just out of range, however, and move back as it moves forward, you'll defeat it easily.

You'll have to keep shooting

Watch your rear.

### THE TEMPLE OF TERROR

This alien giant is vulnerable in the chest opening. Leap up and shoot at the opening while dodging the spiked balls. As you've learned, the Spreader will be a great advantage in this battle.

### THE FINAL STAGE

Heat-seeking alien mines, explosive bubbles and swift monsters are just the beginning of what to expect in the last stage. Clearly Konami has spared no expense to challenge even the hottest Power Player. If you remember the basic strategies, though, and use the Spreader, you might just surprise yourself and make it all the way to the end. If you do, you'll certainly earn your stripes in the battle that follows. Our hats are off to all who succeed.

# DYNOWARZ

## THE DESTRUCTION OF SPONDYLUS

Armies of mechanical beasts called Robosaurs have been sent to destroy the seven Spondylus planets by the sinister Dr. Branius. It's up to you, Professor Proteus, famed inventor and designer of a new breed of giant robots, to fight your way to the control center of each planet. Enter your own mechanical beast, the incredible Cyberasaurus, and neutralize the Main Computers. Pilot your machine over the surface, then jump out and fight to the planet's core!

# AWARDS '89

Second  
Annual

## NESTER AWARDS

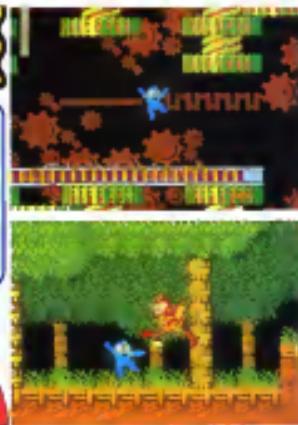

The hall is packed, the band is warming up and the lights are going down. That can only mean that it's time once again for the most prestigious event in the video game universe—the Nester! And now to announce the winners, please welcome your host, Howard...

## Best Graphics & Sound

The nuts and bolts look of *Mega Man II* made a big hit with our voters. Mechanical monsters like the Fan Fiend and Atomic Chicken give the game a high-tech feel that is complimented by a driving rock beat.

**Mega Man II**

## Best Challenge

Anyone who has battled through to the end of *Ninja Gaiden* will agree with those who voted for this game. Every step is challenged by Jaquito's henchmen. And to become a master of the ninja arts and swordplay takes lightning reflexes.

### Ninja Gaiden

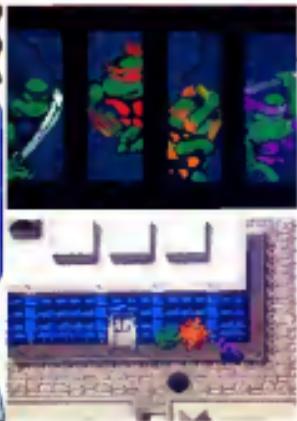

## Best Theme, Fun

They're America's favorite characters in a fast-action game—a combination that's tough to beat. Besides, what other game depends on the skillful use of nunchucks and pizza? We're talking weird but wonderful here.

### Teenage Mutant Ninja Turtles

## Best Play Control

When it comes to jumping, climbing, zapping enemies and using nifty items like levitation platforms, nothing comes close to *Mega Man II*. There are more ways to get through this game than days in the year.

### Mega Man II

## Best Character

He's the hero who does it all, from rescuing a princess to casting magic spells. Link, from *Zelda II: The Adventure of Link*, is puckish, lucky, persistent and loyal—qualities that win him friends wherever he goes.

## Zelda II: The Adventure of Link

## Best Ending

It's no mystery that *Ninja Gaiden* takes a second Nester with its stunning, surprise ending. The use of Cinema Displays to reveal plot between action sequences is a winner. The ending is well worth the effort.

## Ninja Gaiden

## Best Player vs. Player

When you and a friend scrimmage with *Tecmo Bowl*, you might just forget that you're playing on a computer. Intensity like that only comes from a human opponent, and great programming.

# Overall

## Teenage Mutant Ninja Turtles

This year the honors go to the turtles for Best Overall Video Game of 1989, and it's well deserved. The importance of the Fun Factor is clear—sophisticated graphics and complex game play alone are not enough. But combine them in a game like TMNT and you've got a hit. From the opening screen right on through to the end you're swept into the wild world of turtle triumphs and trouble. The play is challenging, the graphics excellent, the sound drives you on, and best of all you control the fate of Don, Leo, Mike and Raph as they track down clues leading to Shredder. Let's give them a big hand . . . or maybe a pizza.

The Nester Awards have been brought to you by all of our readers who took the time to fill out their ballots and send them in. Thanks for helping to make this the most exciting awards presentation ever. As you may have noticed, these awards are for all the games that were released during 1989. That means that the latest games like Super Mario Bros. 3 and Super C aren't eligible until next year when we hold the 3rd Annual Nintendo Power Awards.

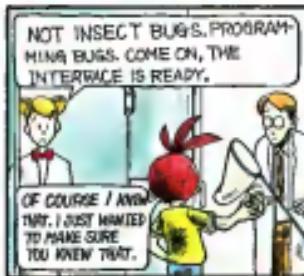

Well, that's it for another year, gang. But with so many great games coming out it's never too early to start reviewing them. By filling out Power/Player Meters on Nintendo Power reviews, you'll have a great record of 1990 games by voting time next year. I'll see you then.

# CODE NAME: VIPER

*Go Ahead—  
Make Kenny's Day!*

When last we saw Kenny Smith, agent of Viper, he was hot on the trail of a massive drug cartel, busting their bases in South America. He is one man against an army of narco-terrorists, alone in a hostile environment with only his trusty .45 between him and certain death. The stage is set for action in Capcom's *Code Name: Viper*!

## Stage One—Brazilian Jungle

Kenny's first mission takes him through the steaming Brazilian jungle and a village well defended by troops of the drug syndicate. Treacherous waterfalls and deadly snipers will make this first mission a tough one.

### DON'T LET THE FROGMEN JUMP YOU!

Don't try to outrun the Frogmen, but eliminate them as soon as they appear. They bounce around unpredictably.

Frogmen are dangerous foes.

Notice which doors enemies come out of and plan your strategy accordingly.

### STAGE 1 CONTINUED

©1991 CAPCOM USA, Inc.

**Know The Enemy Foot Soldiers!**

### SAVE THE HOSTAGES

Rescue 16 hostages and you'll get an extra continue.

GREY	BLUE	PURPLE	RED	WHITE	YELLOW
					

There are many helpful items Kenny can find hidden in the drug cartel's bases. Be sure to note the locations of these valuable things. Items may appear in different spots depending on the difficulty level.

 **Kidro-45 Ammunition** can be found hidden in the bases.

 **Mashless Burns** are scattered throughout the levels, but have limited uses.

 **The Stop Watch** adds to the time remaining to complete the mission.

 A **Health** adds a box to Kenny's life meter.

 A **1-HQ** gives Kenny another life.

 The **Bomb** Kenny gets from the commando allows him to blow up the bases.

### BE SURE TO SCORE A MACHINE GUN

 This gun will mow down the opposition. Collect this whenever possible.

 **Don't Waste Bullets.**

### SHOOT THE SNIPERS SWIFTLY

Inch forward cautiously and shoot them as soon as they appear on the edge of the screen.

 Pick him off at a safe distance.

 **FIRST BASE**

### FIRST MISSION ACCOMPLISHED!

Kenny has rescued a captured commando and the cartel's first base lies in ruins. His rescued comrade has a tiny fragment of the cartel's evil master plan. Kenny must find the meaning behind this message!

## Stage 2—Weapon Warehouse

To equip their foot soldiers, the cartel has amassed a gigantic stockpile of weapons in the warehouse located near the mouth of the Amazon River. Huge crates and irregular stacks of boxes staked out by soldiers make this a treacherous enemy outpost. Kenny arrives on a moonlit night to put out the lights in this base.

Most of the personnel in the warehouse are Blue Foot Soldiers. Remember that you need to hit them twice to take them out of the action.

### PACKAGED AND READY FOR SHIPMENT!

Cartel soldiers with machine guns are hiding inside some of the crates. Once you know where they are, get in a position to nail them as quickly as you can, before they can shoot you.

### PERILOUS PILES OF PACKING CRATES!

Steps formed by stacks of boxes can be used to your strategic advantage. Avoid shots by ducking or jumping down. The slightest hit by your gun will affect the enemy, so don't worry about scoring direct hits.

### LOOK BEFORE YOU LEAP!

If you're on top of a building and enemies lurk below, don't jump down into their midst, or you'll get hit. Wait for them to jump up into your field of fire.

This is one  
unfriendly  
crowd!

Those foot  
soldiers love  
to jump! Be  
sure to nail  
them when  
they do.

### SPIKY BOMBS ADD TO THE RISK!

One area of the warehouse is defended by "Large Bombs" which drop from the ceiling and take out intruders. They are easy to avoid once you know the area where they fall.

SECOND BASE

SECOND BASE

SECOND BASE

### SECRETS OF THE REVOLVING DOORS. HIDE INSIDE!

Sometimes when you enter a door, enemies will come along and wait outside to ambush you. But, you can stay inside a door as long as you want by holding Up on the Control Pad, and the enemies will usually move on.

### AMBUSH THE ENEMY!

Burst out of the door with your gun blazing! If an enemy is directly in front of the door, you can mow him down before he has a chance to hit you. To play it safe though, remain inside until the coast is clear.

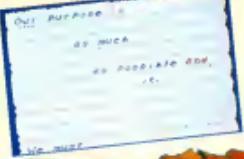

To change the direction when crouching, press diagonally towards the direction you want and fire.

### STAGE 2 CONTINUED

### SECOND MISSION ACCOMPLISHED!

Destroying the cartel's weapon warehouse severely damages their operations. The commando Kenny rescues here will have even more information on the cartel's plans, but the scrap of paper he has is just a fragment and is practically meaningless. Kenny knows he must act quickly to stop the vile drug smuggler's schemes.

## Stage 3—Abandoned Village

Hounded by drug traffickers, the inhabitants of this village in northern Chile have fled to safer pastures. The cartel has since fortified the old colonial buildings with sandbags and even an old school bus, making this a death trap for your average secret agent. But Kenny Smith, last agent of Viper, is not your average agent—he is the best there is.

### CREEP FORWARD CAUTIOUSLY

Sometimes it pays to inch forward and sneak up on the enemy, especially when you're in unfamiliar terrain.

### ASSASSIN'S AMBUSH

Advance slowly and take out the camouflaged mercenaries here one at a time. Or, run past them quickly and then turn and shoot as fast as you can.

### MORE RASCALS IN THE RAFTERS

Inside the town hall, green suited goons wait to get the drop on you from the rafters. It's another case where patience pays off.

### IT TAKES PERFECT TIMING

Foot soldiers here have taken up strong defensive positions behind sturdy obstacles. But they're cautious and take a lot of time between each shot they squeeze off. Duck down and study the timing of their shots.

Shoot when they're ready to stand

Be sure to get the Heart here. It will greatly increase your chances of survival

## STAGE 3 CONTINUED

### INTO EVEN MORE DANGER!

So far, Kenny's mission has been a virtual suicide run. Judging from the readiness of the enemies he's encountered, someone must have tipped off the cartel that he was coming. But who? Kenny doesn't have time to ponder this question though, because there's more danger ahead!

## Stage 4—Incan Ruins

A fabulous lost city high in the Andes mountains has been taken over by the drug lords. Many strange traps set by the ancient inhabitants still function and they add an extra element of hazard to Kenny's journey through the piece.

## Stage 5—Underground Prison

This prison was built by a mad scientist to contain the subjects of his experiments. A few of his victims, the Meniacs, still haunt the cells. The otherwise empty dungeon is the perfect place for the drug cartel to imprison their enemies.

## Stage 6—Drug Lab

Kenny must make his way up through a high-tech tower of glass elevators to reach the heart of a massive drug laboratory. The maze-like climb challenges Kenny as none of his missions have so far.

## Stage 7—Mechanized Warehouse

Heavily guarded by menacing mechanical traps and beds of deadly spikes, this warehouse should be the last base Kenny has to deal with. The drug cartel's plan will be fully pieced together by the time he finishes here. But it is his mission accomplished?

## And Now...

Kenny must make one final trip to nab the ring leader of the giant drug cartel. Now that Kenny knows the identity of this mystery man, his mission to stop him becomes all the more imperative. The war on drugs must be won!

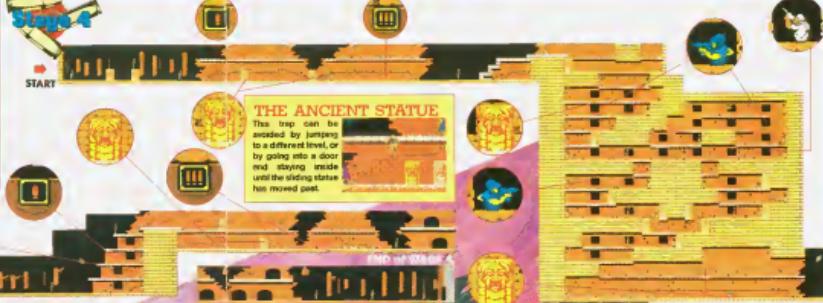

# CODE NAME: VIPER

Before they were captured, the other Viper commandos were able to get these maps to Kenny at Headquarters. Use them to your advantage!

## SNEAKY SNIPER

Quick reflexes will enable you to take out snipers. Shoot once and then jump down to avoid their fire.

## START

## Stage 5

### MECHANICAL STEAM TRAPS

These weird traps look deadly, but they are easy to avoid once you've studied their movement patterns.

## MANIACS!

Ghastly survivors of a mad professor's experiments, these half-starved fiends attack anything that moves. It's best to put them out of their misery when they're still in the middle of sliming out of their cells. They go crazy once they sense your prey.

## Stage 6

DON'T MISS THIS 1-UP!

## CRAZY CONVEYOR BELTS

It takes practice to get the hang of moving about on these conveyor belts. Some things just don't work best, other times it pays to be patient. As a general rule, you'll want to go in the opposite direction from the way the conveyor will take you.

To add to the hazard of the conveyor belts, steel grinders will fall from the ceiling. In order to avoid being cut to shreds, see a grinding belt, hold your position on the conveyor belt by jumping straight up. Once the grinder has fallen, it's safe to move on.

### MECHANICAL MASHERS

The key to getting past the mechanical masher is to learn to watch them from the moment it moves closely. Wait for an opening and go for it.

## Stage 5

END OF STAGE 5

### THE DRUG LAB TOWER!

In the drug lab tower, there is more than one path you can take to the top. One path is slow and safe, but it takes longer than the other longer, but with less enemy opposition. As long as he doesn't get hit, Kenny can outrun most of the enemies. Jumping off a ledge can sometimes be a good tactic to bypass difficult areas.

#### START

Go up and grab the two items, then back track the way you came and go down. If you move too slowly, you'll be crushed by the ceiling.

There are many Power-Up items in this area that are difficult to obtain. If you are not sure you can retrieve an item safely, leave it behind. There are plenty of items in this stage.

Burai Fighter! Choose wisely the Power-Up items you take and those you leave behind.

Snakes! & Take Sides!

To defeat this snake-like creature you must destroy the three colored sections in his body. The snake will then turn into three smaller snakes that you must defeat as well.

Go for the colored sections first!

# ADVENTURES OF LOLO 2™

© 1992-1993 HAL AMERICA INC.

Once again Lala has fallen into evil clutches and Lolo bravely sets off to save her. This time he must solve the puzzles of a tower that soars to the sky. The same dastardly cast of enemies is back from the original Adventures of Lolo, and it's clear they wouldn't mind feasting on a

Lolo-kabob. Like Lolo's first classic adventure, the trick to each room will involve lots of strategy. Move frames to block enemy attacks, collect Hearts and Power items, shoot enemies and even use them to achieve your own ends.

## Plan Your Attack

Every room presents a new and exciting challenge. Your first move should be to stay put until you've studied the layout of the room. Every frame has a purpose of one sort or another and every enemy can be blocked, dodged or defeated by Lolo.

### Treasure Chest

Collect the Hearts then go to the Treasure Chest. All enemies will disappear.

### Emerald Frame

Trap enemies by pushing Emerald Frames to strategic locations.

### Helpful Enemies

Use Rocky or Leaper as a shield to block enemy shots by walking behind him.

### 7th Floor Warp

Shoot Snakey twice and push an Emerald Frame to where the Snakey was.

## Lolo's Enemies

Snakey is harmless, but sometimes helpful, too.

Leaper falls asleep when he touches Lolo.

Alma rolls about and can defeat Lolo with a touch.

Skull comes to life when Lolo has every Heart.

Gol fires flaming breath once Lolo has the Hearts.

Rocky tries to push Lolo into a corner and pin him.

Medusa shoots the deadly Evil Eye.

Don Medusa roams about and frees the Evil Eye.

## Tips For Tough Rooms

On the island, take the left Heart Frame and turn the left bottom Gol into an egg. Float on the egg to the Right and Up. Quickly grab the Heart, get back on the egg and move Up.

You have to be very fast getting the second Heart.

In this 7th Floor room, push the Emerald Frame just to the left of the Medusa. Cross the stream and wait to cross the path when the Alma shields Lolo from the Medusa's Evil Eye.

Grab the Hearts and return using the same method.

# ROCKET RANGER™

© 1996 CDS Interactive

The Leutonian are well on their way to enslaving the entire planet. Already their domination of space is complete and their bases are spreading on Earth like weeds. If there is any hope at all it lies with a special American commando who patrols the world wearing a

special rocket suit and who is known only as The Rocket Ranger. As you play Rocket Ranger the story continues to unfold according to the actions that you take. There's great action and graphics, too.

## The Leutonian Empire is Conquering Earth

A space age Rocket suit, over-the-shoulder combat views and a text story that sums up the action put Rocket Ranger in an orbit of its own.

Not every country is held by the enemy. Flying to the wrong country wastes precious fuel.

Messages will help you decide your course of action.

Your first target is the Hindenberg, a great airship racing back to the Leutonian capitol in Europe with captives.

Every lab is guarded, so you'll have to fight to gain the rocket parts you need.

Aerial patrols will attack you in the skies above the Leutonian headquarters.

Attack the jungle base by shooting the open windows and dodging enemy fire.

## Save Our Species

Run out of gas in the middle of nowhere? An S.O.S. will save your skin.

Use S.O.S. to call for a rescue mission. You'll lose time, though, so don't waste precious fuel.

In a dogfight, quickly move the Rocket Ranger to a position just above the lead aircraft.

Stay on target and fire. The enemy will continue to approach in waves.

Five rocket components are needed to build a rocket that can take you to the moon. There you must stop the Leutonians from carrying out their evil plans.

# New Coming Up! for Game Boy!

Game Boy games ready for release in the near future will feature some familiar characters from games designed for the NES and some brand new characters and ideas. Two of the hottest examples of the former send some super popular fighters off on new challenges and adventures. Here's a sneak peek at Double Dragon and Fortress of Fear: Wizards and Warriors, Chapter X!

## DOUBLE DRAGON

Billy Lee is back in action! Tradewest is developing their original NES version of this street fighting classic for Game Boy. From what we've seen of the game, it looks like there will be plenty of sweaty palm action and fast flying fists.

The name is the same but the adventure has changed.

### More To Come

There's a lot in the works for Game Boy. The arcade hit, Dragon's Lair, which featured animated scenes and quick decision game play is being developed by C3D Imagesoft for later this year. They're also working on a soccer game. Wrestlemania is being developed for Game Boy by Acclaim. Neosoft is working on Power Mission, which has been described as a naval battle simulation with plenty of options and weapons. Also, GameTek is considering their game show games, Jeopardy and Wheel of Fortune for Game Boy. We think it's a great idea!

◀ Fight off the Shadow Warriors.

Pick up the Weapons that enemies drop.

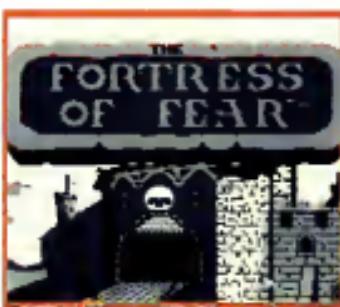

◀ The two-player game is in a closed arena.

## WIZARDS OF WARRIORS X: FORTRESS OF FEAR

The popular character Kuros from Wizards and Warriors fame is making his way to Game Boy straight from the hit NES sequel, IronSword. The folks from Acclaim have dubbed this one Chapter X. If we find out what happened to Chapters III through IX, we'll let you know.

Kuros enters a new evil castle and begins another journey to defeat sinister beings.

# SHADOWGATE THERE IS A SNAKE IN MY PATH. WHAT DO I DO?

**T**his mean looking reptile will confront you after you walk very lightly (with the help of Potion No. 2) over the rickety suspension bridge. You'll need the Wand to deal with the Snake and you'll find this elusive item far away, deep in the Castle. When you get to the Observatory, open the Star Map to reveal the Rod. Take the Rod to the Balcony that is close to the Banquet Room and use it on the hole in the well. A hand will appear and

give you the Wand. Holding the Wand, cross the bridge again and use it on the Snake.

Open the Star Map in the Observatory.

Use the Rod on the hole in the wall.

Use the Wand on the Snake.

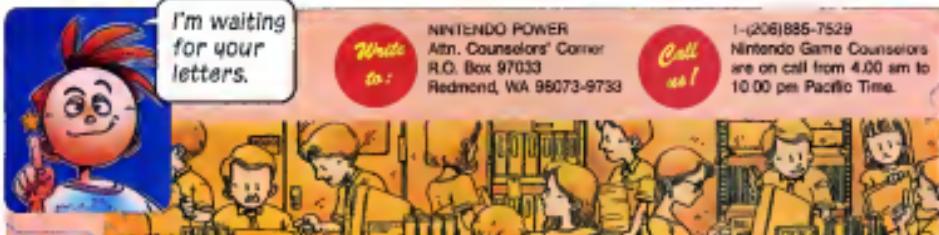

I'm waiting for your letters.

## SUPER MARIO BROS. 3

### ■ FROM AGENT # 123 1-Up Frenzy

Start your adventure through the Mushroom Kingdoms with a ton of 1-Ups! In World 1-2, collect the Mushroom and Leaf to become Raccoon Mario, then go back to the tall pipe that produces Goombas. When a lot of Goombas are on the ground, press and hold the A Button to jump as high as possible, then float to the ground by pressing A' quickly and repeatedly and stomp one of the Goombas. Jump again without touching the ground and stomp another Goomba. Repeat this method, never touching the ground and get each Goomba as it drops. First, you'll earn progressively more points. Then, you'll earn 1-Ups. Continue for as long as time allows. Watch for more Super Mario Bros. 3 tips in the June Strategy Guide!

Jump, float down and aim for a Goomba. If you don't touch the ground, you'll earn a lot of points and, eventually, 1-Ups!

### A QUICK TIP:

Here's how you can reverse your swing in Lee Trevino's Fighting Golf. While selecting your player, hold left on the Control Pad and then press the A Button. You'll tee-off left-handed!

## BATMAN™

### ■ FROM AGENT # 708 Punch and Clutch

While the Bomb releasing Drop Claws at first seem like a threat, you can use them to your advantage. Stand very close to the Drop Claw target area and punch the falling Bombs quickly and repeatedly. You'll collect items as soon as the Bombs produce them and, at the same time, continue to blast Bombs. This method works best if you have a controller with a turbo function so you can punch at super speed.

Keep punching rapidly for Power-Ups

### ■ FROM AGENT # 525 Maze Moves

The maze of Castle Terenea can be quite confusing to navigate as there are many teleport doors. Our Agents have come up with a strategy, though, that will make moving through the maze a cinch. Just remember to teleport only through the doors that are guarded by Skeletons. Defeat the Skeletons, press Up on the Control Pad and go!

You can create an above average women's team in this versatile baseball exercise. After you select the Make Team option, move the cursor Down, Right, Left, Down, Down, Right, Up, Up, Down, Up, Down, Up and then press the A Button. The question "What is a Wren?" will appear. Erase the question and input the answer, "A Bird." (remember the period). The question "When isn't it?" will then be displayed. Erase and answer "When it is." You'll then be free to pick your team logo and view your players. The team will still be a mixed bag of talent but, on the average, the players will be a notch better than players that are picked without the code.

#### Password Bonanza

The code has been cracked! Our Agents have found out how to begin in *Mega Man II* with any or all of the special weapons and any number of Energy Tanks. The unique *Mega Man II* password consists of a five by five grid with nine highlighted squares. The top row of a valid password always has one mark and the position of that mark dictates the number of Energy Tanks that *Mega Man* will have. The positions of the other eight marks determine which weapons *Mega Man* will possess. The table below shows the five possible Energy Tank totals and the corresponding password positions for the special weapons. Choose the number of Energy Tanks that you would like to start with, then decide which of Dr. Wily's creations should be defeated (which means you'll have the special weapon of that character) and which ones should be still a threat. Enter the top position to obtain the weapon. The bottom position contains no weapon.

### Hidden Rooms

The key to success in this pocket sized adventure through Transylvania is to keep your weapon powered up. Our Agents have discovered hidden rooms in each stage containing Candles that are packed with Power-Ups. In the first stage, as you climb the fifth rope, keep climbing and you'll ascend into a secret chamber with no enemies and several Candles. Whip the Candles and take in the rewards. The other rooms are hidden as shown in Stages Two, Three and Four.

### 1-UP

The first Candle that you come to in Stage One will net you nothing more than a Coin if you break it with your Whip. Pass it by, though, and the eleventh Candle will reveal a 1-Up when broken. In this case, passing up a small reward pays off big later.

Don't hit the first Candle and later on you'll earn a 1-Up.

### STAGE ONE

Keep climbing on the last rope, up through the bricks to enter a hidden room.

### STAGE TWO

Blast the Eye on the second step to gain access to a room of treasures.

### STAGE THREE

Halfway up the rope, look for a place to walk through the bricks.

### STAGE FOUR

Float in mid-air near the top of this room and climb an invisible rope.

## PHANTOM FIGHTER™

from FCI

TM Right Reserved ©1989 Pop Cap

Martial arts and monsters aren't often mixed in comic books, television or movies, even though the combination is a pretty cool concept. If you don't believe the idea has potential, watch "Legend of the Seven Golden Vampires," starring Peter Cushing, when it comes on the late show. Or, play Phantom Fighter. In this game, elements of ancient Chinese legends of strange, floating, undead phan-

toms called Kyonshies are united with the excitement of block-busting Kung Fu. The results are unusual, to say the least. As Kenchi, a skilled martial artist, you must journey through eight villages infested with Kyonshies. Along the way, you'll learn new martial arts skills and collect powerful items. Phantom Fighter features smooth animation and fun dialogue between Kenchi and his bumbling assistant. The Kyonshi infested vil-

lages are nicely pictured and add to the fun of the game's theme. The Kyonshies, being zombies, are not particularly clever opponents, but they are tough and relentless attackers. Once you find the healing location in each village, you'll find yourself visiting it often. But whatever you do, don't give up! Become a true Phantom Fighter!

battle game has a look and feel similar to other games of the genre, such as Zaxxon and Star Soldier. However, its enemies and setting are unique and it has an interesting ship design feature

which allows you to customize, to a certain extent, the extra weapons you get during the game. Two players can take turns attacking the evil forces, and each can customize their own ship.

# CASTLE OF DRAGON™

from SETA USA

TM SETA USA

More high fantasy action and adventure for the NES! The evil Dragon Master has kidnapped the king's beloved daughter, Amoreena, and taken her to the flame filled castle of Darkierre. Amoreena's only hope for rescue lies with the great warrior Geraden, who bravely sets out from Wanlary Castle to do battle with the Dragon Master.

Geraden starts out on his journey with a strong suit of armor. By defeating enemies, he'll collect tokens that increase the power of his suit as well as grant him better weaponry. Geraden's more powerful armor looks cooler than the suit he starts out with, plus it lets him take a lot of punishment. But be careful—his suit can only take so

much damage, and once his armor is gone even Geraden won't be able to stand up to the attacks of the Dragon Master's minions. Battle over 40 different monsters on your quest through eight perilous levels to the final encounter with the Dragon Master.

## SNOOPY™

Good Grief! America's favorite beagle, good ol' Snoopy, is on his way to Italy for a silly sports spectacular! With his cousin Spike and best buddy Woodstock, he'll participate in six wacky events: the sack race, boot throw, pogo, overboard, pile of pizza and river jump. Each event will test your gaming reflexes and funnybone too!

The action is displayed in great, cartoony graphics which capture some of the feel of Snoopy's classic animated specials. And

although the computer doesn't make a very tough competitor, against a friend, the fun and challenge really begins! Although this game is aimed at younger players, Snoopy fans of all ages are sure to enjoy the NES antics of their hero.

It's easy to beat the computer by using different turbo settings. On the fastest setting you can win Overboard, on the slowest setting you can win the Sack Race every time.

## DUSTY DIAMOND'S ALL-STAR SOFTBALL™

from BRODERBUND

TM 1993 Broderbund  
© 8 & C 1990 Broderbund

Every year, diamond burns from all over the world gather in the mythical town of Mudville for the World's All-Star Softball Championship. The field has been narrowed to sixty of the wildest characters who ever swung a bat. Now, as manager, you must pick your team from this group of scoundrels and attempt to take them all the way.

One of the highlights of Dusty Diamond's Softball is the ability to pick your team, just like you do at school or a picnic. Each of the sixty

characters you can choose from has different hitting and fielding abilities; you'll need to experiment to find the perfect team. The tournament is played on six playing fields, each with its own "home rules". A password feature saves your standings, and you'll need to win five games to challenge the awesome "Amazons" team.

Can Diablo club one out of the park?

Pick your team carefully.

# WORLD CHAMPIONSHIP WRESTLING™

You control the moves of any of 12 top stars of the N.W.A. in World Championship Wrestling. Feel the crunch of Steve Williams' "Oklahoma Stampede" or get squashed by the "Belly To Belly Suplex" of 250 lb. "Dogface Gremlin" Rick Steiner (sounds painful). Other featured wrestlers include "Total Package" Lex Luger, Sting, Rick Flair, Ricky Steamboat and The Road Warriors: Hawk and Animal.

World Championship Wrestling offers the player many options. For example, two players can go head-to-head, or you can play alone against the computer. Wrestling solo or in tag teams is also an option, and in tag team mode you can pick your own duo. Before the match, each wrestler can pick four specialty moves to use. You can also set up a tournament, and a password will save your win-loss record. Like other wrestling games, controlling all the moves takes practice, and the game is more fun to play against a friend. However, one neat aspect of WCW is a computer opponent that reacts realistically.

Have you ever played the 8th hole at Pebble Beach, the 14th at St. Andrews, the 10th at Riviera and the 4th at Baltusrol in one outing on the links? Well now you can! Jack Nicklaus himself picked the 18 holes you'll play in "... Major Championship Golf". Selected for

their challenge, historical importance and natural beauty among other factors, every hole is unique. Play control on this game is a bit different than on other NES golf games, but still allows you to hook and slice the ball to make that dif-

ficult shot. You can set up the game to play at beginner or expert skill levels, skins or stroke play, and with a male or female player. By sharing controllers, up to four can play against each other or the computer— you can even golf against Jack Nicklaus (or seven other golfers). So break out your clubs and do some major championship golfing!

Here's an overhead shot and a view from the tee at the eighth hole at Pebble Beach.

## ROLLERBALL™

THE SKYSCRAPER

Challenge the Skyscraper or take on a friend in Matchplay. Rollerball is two great pinball games in one! Skyscraper is a realistic pinball game played on four vertically scrolling screens. One to four players can join in the fun. Like a real pinball machine, Skyscraper has many targets, slots and gates that give you a chance to rack up bonus points if you hit them. Matchplay involves a two player simultaneous pinball dual between an elephant and a donkey. The object is to keep two balls constantly in play while hitting targets to reduce the other player's score. You can assign different handicap points for each player so players of different skill levels can compete equally. Besides the realistic pin-

ball feel of the game and the colorful graphics, the best thing about Rollerball is that it won't tilt!

## CONFLICT™

The world of modern mechanized warfare is the subject of this battlefield simulation, which gives you control of a modern assault force consisting of armored units, soldiers and aircraft. Your job is to take out the enemy's flag tank, and that task is easier said than done. Both sides have industrial com-

plexes that allow them to produce additional weaponry during the campaign, and scoring victories will give you credit to further build up your forces. This game makes a

great one-on-one war game simulation. It's not fast on the action, it plays more slowly, similar to a board game and it really challenges your strategic instincts. You

can also play the computer, a very tough opponent which usually has an advantage in any given scenario. Every player will be sure to have their own strategy and tactics in this game, but we found it best to play defensively at first, building up your forces before launching your attack.

Build as many ground to air attackers as possible.

Surround your factories and flag tank with them.

Build up strength and then attack.

## DOUBLE DARE®

The Mental Test

The Physical Challenge

Like the TV show on which it's based, Double Dare will challenge your mind as well as your reflexes. The mental challenges comes in the form of crazy trivia questions. It's pretty easy to beat the computer, but try playing against a fellow trivia buff for a real challenge. The physical challenges are, well, a bit more difficult to describe. For starters, try having yourself shot out of a cannon into a giant plate

of pasta. Or having to toss bananas into the paws of an enormous ape. We don't recommend trying these tricks at home, except that is, on your NES.

## KID KOOL™

In a mysterious fantasy world of the past, a beloved king lies dying. The enemies of his kingdom are massing for an attack. He needs seven herbs to regain his health within three days, or the leaderless kingdom will be taken over. It's up to the cleverest kid in the kingdom, Kid Kool, to find the herbs. Zany enemies will make the mission difficult, but the Kid will have help from a magical little fur-ball pet. Kid Kool's action graphics have a

certain whimsical quality about them and will appeal to players of all ages.

Stomp these crazy creatures!

Be sure to have your little alien buddy with you!

## Nintendo Power Visits Boeing Flight Simulators

What kind of video game weighs 10 tons, costs over 10 million dollars and hundreds of dollars an hour to play and operates with two 160 Megabyte main frame computers? A Boeing 747 Full Flight Simulator, that's what! These flight simulators are anything but toys, however. They are valuable teaching tools and help make air travel the safest way to go just about anywhere.

Recently, Nintendo product analysis was treated to a tour of the Boeing Commercial Flight Simulator Training Facility in Seattle, WA.

This is one big video game!

It was a chance to see an advanced application of computer technology and just plain have fun with what was to us the world's biggest and best video game! Boeing's flight simulators are serious business for the thousands of pilots and maintenance crew members who train on them every

year, however. During the rigorous training course, students learn the airplane inside and out, and practice all kinds of maneuvers, including emergency situations they hope will never occur in a real flight! After a tour of the facility, we were

allowed to try our hand at a take off and landing in a 747 Full Flight Simulator (or FFS for short). An FFS is the size of a small room and is complete with a cockpit mock-up using real instruments. The entire structure is mounted on hydraulic lifts which move in response to the cockpit controls. Combined with realistic computer graphics which are projected on mirrors outside of the cockpit windows, the FFS gives you an astounding degree of realism when you take the controls. With the engines all set up for us by one of the technicians, the takeoff was a simple maneuver. Once the plane reached 140 miles

per hour, we pulled back on the stick and were off into the wild blue yonder. The simulator can bank at up to a 35 degree angle, and so it feels like being in a real plane during takeoff or maneuvers. Boeing's flight simulators have large data bases which allow them to simulate flights to many real airports or to a generic computer generated airport. Landing the plane was a real test of reflexes and skill. However, Howard Phillips, Game Master that he is, actually did a respectable job of it. Others in our group weren't so lucky and usually ended up with less than perfect touch-downs. We left the simulator with a heightened respect for the pilots who daily land the planes at our nation's airports.

Perhaps some day there will be a flight simulator for home use that comes as close to reality as Boeing's advanced flight simulators do. For now though, we'll have to stick with our NES, playing such games as Air Wolf, Infiltrator, Captain Skyhawk, Top Gun and Stealth ATF to experience some of the fun of flying.

# Big News For Comic Fans

The further adventures of Mario and Luigi are on the horizon! No, we're not gossiping about Super Mario Bros. 4, we're talking about the Super Mario Bros. comic book. Voyager Communications Inc., a new comic book company, has recently begun production of comic books based not only on the cast of the Super Mario Bros. series, but other favorite Nintendo games and characters like The Legend of Zelda, Captain N, Matroid, Kid Icarus and Punch-Out!! All these titles will be presented under Voyager's comic imprint "Valiant." We asked Jim Shooter, president of Valiant, about what to look forward to in the new Nintendo series.

"Our goal for our Nintendo titles is to make comics that are clear and accessible to everyone, including those who aren't avid comic readers," Jim said. "We're trying a very straight-forward art style, sticking

with conventions that are well known. Our stories will be as interesting and entertaining as possible."

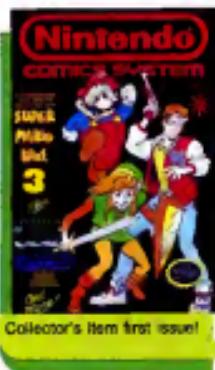

Valiant's Nintendo titles will explore areas of Mario and Luigi's personalities that are not seen in

exciting" Jim commented. With Mario and Luigi in the starring roles, the results are, as you'd imagine, both entertaining and humorous.

Valiant's comics are available wherever toys are sold, at most World Of Nintendo outlets, comic book specialty shops and by subscription. Some titles, such as "Super Mario Bros. Special Edition #1," "Nintendo Comics System" and "Super Mario Bros. #1" have already been released, and should be available in stores near you. In May, "Captain N: Gama Master #1" and "The Legend of Zelda #1" will be added to Valiant's monthly roster. Future titles based on other games and characters are in the works. ## World Class Service Now Available

One of the keys to the Nintendo Entertainment System's success is the great network of product support that Nintendo has established. An example of the continuing strive is the Nintendo World Class Service program which will soon be available at many World Of Nintendo retailers.

By using a newly developed Nintendo Test Station, your local participating World Of Nintendo retailer can quickly diagnose the

source of any problems with your NES. If your NES is still covered by the 90 day warranty, all you need to get it fixed fast is your original, dated sales receipt. If your warranty has expired, you can take your NES to a World Class Service retailer to speed up the repair process and put it back in action quickly. You can also buy a new Nintendo quality components and get playing again immediately (which is useful if you have a dog

that likes to eat NES parts). Nintendo World Class Service is now available at selected locations in the following states: Massachusetts, New York, New Jersey, Pennsylvania, Minnesota, Wisconsin, Illinois, Virginia, Arizona, California, Connecticut, Maryland and Washington.

For more information on the new Nintendo World Class Service program, or to find out which World Of Nintendo retailers are participating in the program in your area, call Nintendo Consumer Service at 1-800-255-3700.

## Celebrity Profiles

### Willie Aames

Willie Aames may play a bumbling fall guy as outrageous "Buddy Lembeck" in the hit television series *Charles in Charge*, but he really takes charge when he plays Nintendo games. Willie has been a dedicated NES player since 1986, the year the system was launched nationwide.

Willie's son Christopher, age 5, gives his dad some stiff competition when they play games together. "The first game we played was *Super Mario Bros.* and Christopher rescued the Princess before I even got through the first world," laughed Willie.

Whether the two square off against each other in *The Legend of Zelda*, *Gradius* or *Teenage Mutant Ninja Turtles*, Christopher continues to have an edge over his father. There is one game, however, in which Willie has been able to outduel his son. "When we play *Top Gun*," confided Willie, referring to his favorite game, "I have my secret weapon—I make Christopher clean up his room to distract him! The problem is, his room has been a lot cleaner lately, so I probably won't be the only 'Top Gun' around here for much longer."

Willie began his acting career at the encouragement of his first grade teacher's boyfriend, a television commercial extra. Co-starring roles in two television series were Willie's big break and ultimately lead to his portrayal of "Tommy Bradford" on ABC's

Willie's in charge when it comes to *Top Gun*!

highly-rated series of the 70's, *Eight Is Enough*.

Several movies followed Willie's five-year run on *Eight Is Enough*, one of which, *Zapped*, teamed him with his long-time friend, Scott Baio. The pair had so much fun working together they decided to continue their partnership on *Charles in Charge*. On the show, Willie's portrayal of "Buddy," Charles' best friend, is much like their real life relationship. In addition to occasionally writing episodes of *Charles in Charge*, Willie is also busily involved in the

cable television series *Dead Letters*, which he describes as "an anthology show like *Twilight Zone* but with a sense of humor." However, Willie is most excited about a new show he will be hosting on NBC next fall. Called *The Crypton Factor*, the weekly game show will quiz contestants in several categories in search for America's brightest teenager. "Hosting *The Crypton Factor* appealed to me because the show stresses education," said Willie. "The format is similar to *Jeopardy* in that contestant must have a broad knowledge of several subjects in order to do well," he added.

When his schedule permits, Willie and his family compete in several fishing tournaments throughout the year. In fact, Willie is such an avid sport fisherman he is currently producing a video on big game fishing. Also an experienced ocean diver, Willie has dived in exotic places like the Red Sea and Australia's Great Barrier Reef. But whether he's battling a huge marlin in a deep sea fishing tournament or dueling with an enemy plane in *Top Gun*, Willie knows he will always come out a winner, even if he can't make the fish clean its room!

### Celebrity Game Review—

### Captain Skyhawk

"We both felt like Luke Skywalker in *Star Wars*," replied Willie when asked what he and Christopher thought of *Captain Skyhawk*. "The game has the best graphics of any we've ever played. You really feel like you're part of the action," he added enthusiastically.

"As the pilot of a high-speed jet fighter," said Willie, "you fly through canyons and over forests and deserts in a mission to destroy enemy ground forces. But you have to be careful," he commented. "Not only do you have to con-

stantly dodge enemy ground fire, but you also must repel waves of attack planes trying to blast you from the sky."

After climbing to level five ("220,000 points!"), Willie gave *Captain Skyhawk* a resounding thumbs-up. "The game was awesome!" exclaimed Willie. "Not only was it extremely challenging, but Christopher and I had a lot of fun playing it, too. On a scale of one to five, we definitely give it a five!"

## A LOOK INTO THE FUTURE OF NES GAME PAKS!!

We saw many great games at the CES—games that really take full advantage of the NES' programming potential. One we thought really packed a lot into one Game Pak was Asmik's *Wurm*. A science fiction adventure, *Wurm* follows members of the Drill Force as they take a journey to the center of a strange planet. Their awesome drilling machine, the VZR-5, can tunnel through solid rock and transform into several forms, including a powerful flying fighter. The four-man crew each has different areas of expertise: Dan, the pilot with

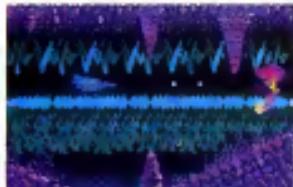

nerves of iron; Moby, the brave navigator and explorer; Locke, the engineer; and Mike, the biologist. Together, the team will explore danger-filled subterranean caverns in search of missing Drill Force VZR ships. Along the way, they will encounter hostile creatures and bizarre civilizations.

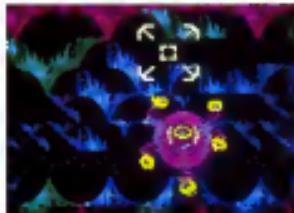

As we mentioned, *Wurm* is distinguished by the variety of different game play tasks the game contains. There are both top-to-bottom and left-to-right scrolling action scenes, cinema screen style interaction with the crew members, first person perspective battle segments and exploratory scenes with the crew outside of the VZR-5. It's one to watch for!

# ISOLATED WARRIOR

# PAK WATCH

**Hot News**

Cut off from any hope of relief, Max Maverick, a trainee of an elite combat troop, must fight his way through advanced cities which have been overwhelmed by alien creatures. Armed with rifle, grenades and a powerful battle suit, he is—the Isolated Warrior! Isolated Warrior, a future offering from NTVIC, differs from the typical NES "dodge and destroy" game. It features colorful graphics and a unique three-dimensional

viewpoint on the action (somewhat similar to the old arcade game Zaxxon). Later stages have different viewpoints, including a first person view combat sequence. The alien creatures really look like they're from another planet and the ruined city is displayed in 3-D detail. Isolated Warrior is still in the prototype stage, but looks good so far.

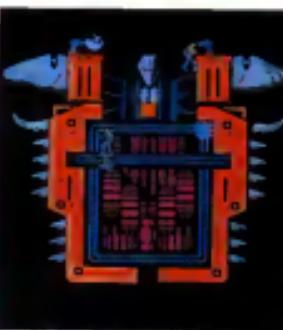

**Hot News**

If action is the name of your game, Low-G-Man is your man! Our product analysts just got a brand

new version of this one that is far superior to the one we saw at the CES. In this project under development by Taxan, the hero, Low-G-Man, battles to re-take a planet which has been taken over by the very robots sent to colonize it. Low-G-Man has a unique attack—he uses a sturdy metal spear to deactivate the robots, plus he has an electro-magnetic disruptor pistol which will temporarily immobilize any robot. In addition to these weapons, Low-G-Man wears a low gravity backpack which lets him make some amazing jumps, especially when it is fully powered up. This will help him explore the city better, and fight the bosses—towering robots up to three screens tall! Another unique game play aspect is Low-G-Man's ability to wrest different vehicles and

weapons from enemy control. There are three cool vehicles, each with a unique mode of locomotion, one is a hovercraft, one is a spider-like contraption and one has mechanical legs for even more powerful jumping. This game should appeal to fans of adventure games, with futuristic locations and exotic weaponry, such as Bionic Commando and Mega Man. Look for more on Low-G-Man soon.

Iron Nail is short for a Low-G-Man boss—he's only two screens tall.

The excitement's starting to build for Castlevania III. Many of you may have gotten

a sneak peek at a prototype version of the game on the Power Walk of the Nintendo World Championships. Castlevania III's game play harkens back to the original Castlevania game, but new, tough enemies block Simon's progress through exquisitely ghoulish surroundings: graveyards, ghost ships

and haunted castles. And wouldn't you know it—that pesky evil dude Dracula is the ultimate source of Simon's headaches again! Fans of Simon Belmont, get ready; Castlevania III should be creeping its way to your local Nintendo retailer sometime this summer!

And this is just the first stage!

Deja Vu, a game with the same kind of PC game features that made Shadowgate a hit, is on its way to the NES. Set in the present day, Deja Vu involves a murder mystery with a *Twilight Zone* feel. The story goes that you wake up in a Las Vegas hotel room and find a murder victim. You must find the killer to clear your name. In the course of your investigations, you will meet many strange individuals

and even do some gambling (both activities you'd experience in the real city of Las Vegas). Deja Vu will have 3 "megs" of memory and feature over 100 screens to explore.

The Bugs Bunny Birthday Blowout, which is due out soon, celebrates the 50th birthday of that "wascally wabbit", Bugs Bunny. It chronicles the antics of Bugs as he tries to get to his birthday party. Bugs' journey is made unpleasant by certain anti-social "toons, like Wile E. Coyote, who weren't invited to the bash.

A little further off from Kemco-Seika is a NES version of the Amiga game North And South, an action/strategy game set in America during the Civil War.

Our investigators at the CES found out that Tecmo is planning on re-releasing Tecmo Bowl with updated player rosters at around the time this fall's football season begins. They are also working on Tecmo Bowl II, Solomon's Club (a sequel to Solomon's Key) and a driving game tentatively titled "Head On".

With so many good baseball simulations available for the NES, you might think it's bad news that yet another is on the way. But Bad News Baseball from Tecmo is a very good baseball simulation, with better graphics and play control than Tecmo Baseball. Plus, it switches to cool close-ups cinema scenes when covering close plays.

## THREE FROM SAMMY

American Sammy has three new titles in the works, each in a different gaming area. Michael Andretti's World GP is their entry into the NES driving game race. It has 16 world grand prix courses to race on, and on each Michael Andretti gives his personal advice on how to handle the course. Although the play control is different than in other racing games, the best thing about this one is that you can race against time, a pro racer, or another player

(with split screen graphics).

Arkista's Ring may look like a RPG at first glance, but it plays like an action game. Arkista, the elf hero, must find eleven treasures somewhere in the game's 125 levels.

## PAK WATCH

Silkworm is an action contest which allows for two player simultaneous play, where one player controls an attack helicopter, the other a high powered jeep. Big variety, Sammy!

Just Around The Corner

## FROM IREM

Irem, the creators of the arcade favorite R-Type, are planning to bring Image Fight, an arcade style action game, to the NES. Yes, there are awesome aliens from outer space threatening Earth; and yes, there is a lone hero in a rocket fighter who is the only hope for otherwise defenseless mankind. However,

Image Fight goes beyond the average battle game with wild arcade-style action and colorful graphics. Your ship can collect many optional weapons that almost fill the

screen with energy. To add to the challenge though, the enemies have some heavy weapons of their own. We expect this one to become a favorite of "shoot-em-up" fans.

The U-Force was a bit difficult to find during the past holiday season, but it is now in much greater supply. Several U-Force enhanced games are in development including a 1st person perspective combat/martial arts/boxing game which will include a training session with several exercises. Also in the works is an RPG which will use the regular controller for movement and the U-Force for activities such as using items, combat and magic! All these games will have special play features which will be accessible with the U-Force controller. We'll be interested in testing them, "hands off" of course, to give you a better "feel".

Enix, the developers of Dragon Warrior, are forming an American division to release Dragon Warrior II. Rumor has it that this one has a much larger world to explore than the original, and it allows you to control a three character party.

# FROM HI-TECH EXPRESSIONS

Just Around The Corner

Following the success of their educational games designed for younger players, Sesame Street 1-2-3 and A-B-C, Hi-Tech will be expanding their appeal to reach other age groups in the family. Currently in the works are The Hunt For Red October, based on Tom Clancy's best selling subma-

rine hunt thriller (and hit movie); Fun House, which follows the successful kids TV game show; and Jim Henson's Muppet Adventure: Chaos at the Carnival. Other titles

on the horizon include Big Bird's Hide and Speak (a game which will incorporate more voices than any NES game so far); The Loony Toons Cartoon Maker (the first NES animation program, featuring Bugs Bunny and Road Runner); Robin Hood: Adventures in Sherwood Forest (a RPG with arcade action); and War In Middle Earth (an epic game based on Tolkein's classic fantasy novels). Quite a line-up!

# FROM MINDSCAPE

Just Around The Corner

Mindscape announced several titles at the CES that should be finished sometime this fall. The best of the crop is Gauntlet II, based on the arcade hit. From what we've seen, the programmers have done

an incredible job on the translation. The NES version looks, sounds and feels like the coin-op, most notably because it has a four player simultaneous mode that

can be used with a four player accessory.

Mindscape is also working on Dirty Harry, an action game based on the movie series; Days Of Thunder, a stock car racing game that follows the story of the summer movie of the same title; and Bruce Lee Lives, a NES translation of the PC favorite following the tongue-in-cheek continued adventures of the martial arts legend.

# FROM FCI

Just Around The Corner

FCI has picked up the rights to the entire series of Advanced Dungeons and Dragons PC games for the NES, with the first game in their series being Heroes of the Lance. The next title will be Pool of Radi-

ance, which will be oriented more towards role playing style of play, compared to the action and adventure of Heroes. FCI is also working on a sequel for Ultima for the NES titled Quest of the Avatar (based on Ultima IV for the PC) and a NES version of the PC hit

Bard's Tale. It looks like FCI may be a company to watch for NES role playing games!

Mediagenic is planning for a busy fall NES season, and told us about a few of their future projects. First is an outer-space racing game using armed hovercraft vehicles with a R.C. Pro-Am feel. Another is a space exploration "light RPG" which is being programmed by Interplay. It involves the adventures of a "Dudley Do-Right" type character as he tries to deactivate a planetary communication computer network gone wrong. Also, Mediagenic plans to introduce an advanced flight simulator with cinema scenes to tell the game's story and a NES translation of a Japanese action classic, Winchester.

# GOSSIP GALORE

We're trying to catch up with all the games that were announced at the Winter CES in this issue's expanded Pak Watch. We remind you that Pak Watch sometimes covers games that are not coming out for a while because they're still under development, although some will be out sooner than others. We hope the advance looks we give here will whet your appetite for some hot gaming!

## U.S.M.C. HARRIER JET FLIGHT SIMULATOR

Absolute is following up the success of *A Boy And His Blob* with a U.S.M.C. Harrier Jet simulation which aims at being more realistic than any other NES flight simulation. Special features include a life-like, detailed instrument panel and "windshield displays" in a view from the pilot's seat. The game also includes vertical take-off and landing in a side view and an air-to-ground combat sequence in a view from behind the plane. Also in the works is a Space Shuttle mission simulator that will encompass a wide variety of shuttle tasks.

## PIPE DREAM AND HATRIS

Bullet Proof Software, the people who helped bring *Tetris* to Game Boy and the NES, have more puzzling fun on the way with two new titles, *Pipe Dream* and *Hatriss*. *Pipe Dream*, which was developed for the PC market by Lucasfilm Games, challenges your ability to construct a series of pipes to control the flow of a stream of sludge called flooz. Once you get used to the simple concept of this game it is just as addicting as *Tetris*. Speaking of *Tetris*, the other game BPS has under development, *Hatriss*, is an Alexey Pajitnov encore to that mind-bender. In *Hatriss*, six different styles of hats fall down the screen in pairs. You need to arrange the hats in stacks according to their type to keep the piles from growing too high. You'll have to be a man of many hats to master this one.

## NES PLAY ACTION FOOTBALL

Nintendo's gridiron simulation promises to be the most entertaining and advanced NES football game yet. Nintendo has done extensive research to make the team rosters as accurate as possible (barring surprise trades or injuries). It now looks like the game will start making its way into stores this summer, in plenty of time for the fall football season.

## SWORDS AND SERPENTS

Our friends at Acclaim let us in on what they have in store for the NES. *Swords And Serpents*, the tentative title of their coming role playing game, incorporates features of actual role playing games, including the ability to "roll up" your own character. Plus, up to four players can play simultaneously (with a four-player controller), with each player controlling a member of the four-person party.

### Dear Readers!

There's big excitement here at Nintendo Power! We're going monthly! Instead of waiting two months between issues, we'll be presenting power packed NES tips and info every month. The regular issue of Nintendo Power will still contain over 100 pages of top game tips and other insider information, and will appear in your mail box every other month. But on the "other" months, you'll get a Nintendo Power Strategy Guide that will give super-detailed coverage on a single hit game. We're pretty excited about the whole thing, and we think you will be too (especially since they're free with your subscription). In June look for SMB3, your first Strategy Guide edition!

I've been spending a lot of time recently helping to plan the Nintendo World Championships 1990. By the time you read this, the tour will have started and hopefully I'll have met some of you in person (I wish I could visit every stop of the tour). Be sure to let us know what you think about the NWC. Your comments are invaluable in planning future events!

Well, gotta go! We'll see you next month in the first Nintendo Power Strategy Guide—featuring Super Mario Bros. 3! Don't miss it!
